

GREEN DENIES LEWIS CHARGE

A. F. of L. President Stigmatizes as "False" Statement That He Urged Governor Murphy Not to Permit a Settlement of General Motors Strike With

—William Green,
American Federation
Following telegram

"I was amazed when I read the report of the address delivered by President Lewis of the United Mine Workers of America at the convention of the International Ladies Garment Workers Union, in convention in Atlantic City, in regard to a statement made by John L. Lewis, president of the United Mine Workers of America:

"That statement is false and because it is false I prefer to believe that Mr. Lewis lacked proper understanding of the telephone conversation I held with Governor Murphy when he made it.

"I most emphatically deny that charge and resent with all the power at my command the other allegation made by Mr. Lewis as reported in the United States General News. I probably get the support of the President of the American Federation of Labor.

"May I supplement this foregoing denial with a protest against a statement made in the address delivered by Mr. Lewis 'that the lack of unity in the labor movement did not seem to be such a bad thing.'"

made by an avowed enemy of labor, for division, discord and hatred can injure labor when the opposition of hostile employers fails.

"I plead for unity, solidarity and cooperation within the ranks of labor and I am willing to render any service that lies within my power in an effort to bring about this result."

produced per worker month to raise wages and reduce costs. The new rates, prices in the last two years.

For 1936, the "84 per cent increase" in production plus the "84 per cent increase" in the value produced by the average worker from \$1,672 to \$2,601 in two years, a gain of \$929 per worker.

These figures were used to justify the increase in wages. The increase was \$1.00 per hour, or 10 per cent, from \$10.00 to \$11.00 per hour.

Stockholders' Benefit, Labor Suffer

"We shall not raise the living standard of the underprivileged millions in America by paying to stockholders a profit of \$1.00 per share."

holders the increased value produced by our workers," the survey continued. "The new rates, prices in the last two years, right in this which they help to produce, taken from them by increasing profits."

The survey also pointed out that the "84 per cent increase" in production plus the "84 per cent increase" in the value produced by the average worker from \$1,672 to \$2,601 in two years, a gain of \$929 per worker.

"Trade union members in foreign countries and farmers in the United States have greatly reduced the cost of goods they buy through cooperative purchasing. These cooperative purchasing organizations have often ended in failure."

"In Sweden a central organization of cooperatives and carefully planned in utilizing the advance of modern industry to raise the living standard. In America, on the other hand, it is to work out this problem of price control. The only way to be undertaken the task through joint action. A Presidential commission to the first step in the initial measure."
